## Pay and Conditions in Retail report 2019

### **About the full report**

This report is based on research by Incomes Data Research covering pay and conditions in retail, conducted during 2018. It includes information from 45 firms across the retail and hospitality sectors in the UK, together employing a combined workforce of nearly 1.3 million.

The report contains detailed findings from our research of pay and conditions in retail covering 45 firms across the retail and hospitality sectors in the UK. As well as details of pay levels for store staff, team leaders and managers, the report examines recruitment and retention issues, the impact of the NLW, pay rises, staff benefits and also contains a directory of pay structures at named organisations.
